Why did you enter the trade?	I entered because the indicators showed a possible upward movement in Ethereum.	I entered because the indicators showed a possible price movement in Ethereum.	I entered because the indicators showed a possible downward movement in Bitcoin.	I entered because the indicators showed a possible upward movement in Bitcoin.	I entered because the indicators showed a possible upward movement in Solana.
What confirmed the setup?	The indicator showed a possible upward trend and	The indicators showed a price movement and	The indicators showed a downward trend and supported the entry.	The indicators showed an upward trend and supported the entry.	The indicators showed an upward trend and supported the entry.

	supported the entry.	supported the entry.			
Was the trading plan followed?	Yes	No	No	Yes	Yes
Was the selected strategy followed?	Yes	Yes	Yes	Yes	Yes
Did you avoid a previous mistake?	Yes	Yes	Yes	Yes	Yes
What was done well?	I identified the upward trend and made a profitable trade	I followed the indicators before entering the trade.	I identified the downward market condition.	I identified the upward movement and made a profitable trade.	I followed the upward trend and closed the trade with a profit.
What could be improved?	I could improve my entry and exit timing.	I should wait for stronger confirmation before entering.	I should improve my entry timing and risk management.	I could improve my exit timing for better results.	I should continue improving my entry and exit decisions.
Key learning	Following a clear plan helps in making better trading decisions.	Indicators alone may not always give the expected result.	Understanding the market trend is important, but proper confirmation is also needed.	Patience and following indicators help in making disciplined decisions.	A clear strategy and disciplined execution are important for successful trading.
