Session- 32

Trading Summary

Clarisha C

TRADING SUMMARY

Summary field	Response
Number of trades reviewed	3
Number of trades closed	5
Number of open trades	0
Number of profitable trades	3
Total realised P&L	+58.10
Total unrealised P&L	0.00
Trading strategy / Strategies used	Indicator-based strategy
Number of trades following the trading plan	3
Number of trades requiring improvement	2
Number of previous mistakes avoided	2
Number of previous mistakes repeated	3
Main weakness observed	I did not properly analyse the market signals to identify the correct time to buy and sell.

OVERALL TRADE REVIEW

Review area	Response
What was the overall outcome of the trades reviewed?	The overall outcome was mixed, with both profits and losses across the five trades.
What worked well across the trades?	Writing Using SMI and RSI indicators helped me analyse market trends and identify trading opportunities.
What problems appeared repeatedly?	I did not properly check the correct timing for buying and selling.
Were there repeated deviations from the trading plan?	Yes, I entered and exited trades without properly checking the market conditions and timing.
Were there repeated deviations from the selected strategy?	Yes, I did not consistently follow the signals from the SMI and RSI indicators before making trading decisions.

Which previous mistakes were successfully avoided?	I avoided entering trades without checking the market trend and avoided making trades without using indicators.
Which previous mistakes continued to occur?	I continued to make mistakes by not checking the correct time to buy, not checking the correct time to sell, and not waiting for clear confirmation from the SMI and RSI indicators.
What common pattern did you observe?	I observed that poor entry and exit timing affected my trading results.
What was your main trading strength?	My main trading strength was my willingness to learn from my mistakes and improve my trading skills.
What was your main area requiring improvement?	I need to improve my entry and exit timing and follow the indicator signals more carefully before making trading decisions.

Process vs Outcome review	Response
What was the overall trading outcome?	The overall trading outcome was mixed, with both profits and losses across the five trades.
How would you describe the quality of your trading process?	My trading process was average because I used SMI and RSI indicators but did not always check the correct entry and exit timing.
Did the outcome accurately reflect the quality of your process? Why/why not?	Yes, the outcome partly reflected my trading process because poor entry and exit timing affected my results. I need to analyse the market more carefully before making trading decisions.

PATTERN IDENTIFICATION TABLE

Area	What pattern did I observe?
Most common strength	Using SMI and RSI indicators to identify market trends.
Most common weakness	Poor timing when entering and exiting trades.
Most common reason for entering	Entering trades based on SMI and RSI indicator signals.
Most common execution issue	Not checking the correct time to buy and sell.
Most common planning issue	Not having a clear entry and exit plan before trading.
Previous mistake successfully avoided	I avoided entering trades without checking the market trend and avoided making trades without using indicators.
Previous mistake repeated	Not checking the correct entry and exit timing.
Most important pattern	Poor entry and exit timing affected my trading results.

IMPROVEMENT ACTIONS

Area requiring improvement	Evidence / Reason	Action for future trades
Entry timing	I did not always check the correct time to buy.	I will wait for clear SMI and RSI signals before entering a trade.
Exit timing	I did not properly check the correct time to sell.	I will plan my exit point before entering a trade.
Trading discipline	I repeated mistakes in 3 trades by not following proper entry and exit timing.	I will follow my trading plan and confirm the indicator signals before making decisions.
